

Ninku

WHITEPAPER

Meet Ninku Inu !
World's Best Community Token !

Ninku Inu is a next gen memecoin with attitude, running on Binance Smart Chain and powered by the community

Safe For Investor

He might look like a doge you've met before, but this guy is ready for the future of the web and sporting a totally rad pair of cyber-shades.

As a token on the next generation Binance blockchain, Ninku Inu is a cryptocurrency that moves at high speeds with low fees.

He's eco-friendly too, with dramatically lower energy costs per transaction when compared to memecoins running on last gen proof of work-based blockchains

Our Tokenomics

Ninku Inu is built to create an integrated swap network with AVAX for meme tokens that have been established for more than 3 months. We stand on the Binance Smartchain network.

In February 2022, 80% of the \$NIU token supply was offered in a fair, stealth launch sale on the PancakeSwap DEX & Biswap Protocol at the lowest possible price. 10% supply BuyBack and burn to dead wallet.
